

LIQUID PROPULSION SYSTEMS CENTRE  
VALIAMALA

January 29, 2021

Tender No. LPSC/LVF/2020E04875 01

Work Package for Finite Element Analysis Activities

CLARIFICATION

Some of the Vendors asked for the calculation of No. of work units and quantity of work.

Ans:- This was clearly mentioned in the scope of work under Work Units and computation. However, please note the following for submitting quotation.

For assessment of quantum of work, one hour duration of work is considered as "one work unit".

A simple job on an average is to be estimated to take 96 hours for completion

A moderate job on average is to be estimated 144 hours and

A complex job on average is to be estimated 208 hours

Based on this, total quantity for each type is worked out for 2 years and projected.

If submitted your quotation, you can do re-work and re-submit the same, if required. There is no change in the tender submission end date and time.
